

GREGG RUMFORD

Project Manager

Gregg joined the Cassetty Builders team in 2019 as a project manager. After moving to Phoenix Arizona right out of college he met his wife Collie and began his construction career starting in the concrete and carpentry trades. He soon developed his own business in both the residential and commercial fields. With over 30 years of experience, his background in tenant improvements, franchise build outs and residential renovation has translated into a great fit with Cassetty Builders.

Gregg and Collie have one son, Hutton and they relocated to Nashville, Indiana in 2001. As an Indianapolis native, the move back closer to family has been great. With Collie's design background they have teamed up to design and renovate several properties in Indianapolis's urban areas. In their free time they like hiking, fishing and spending lots of time on their property in Brown County.
